

### Description

- ◆ £4.5m 2,400m<sup>2</sup> adapted and expanded Illogan Primary school facility for 242 pupils in Cornwall. The school provides enhanced contemporary primary and extensive SEN facilities for the newly co-located Key Stage 1 and 2 pupils of nearby Curnow school
- ◆ Curnow School caters to the specific needs of every individual pupil, addressing their emotional, physical and mental wellbeing
- ◆ Combining Illogan and Curnow schools enabled integration of pupils, challenging pre-conceptions whilst increasing emotional intelligence
- ◆ The building provided a truly integrated school with hygiene room with hoist, sensory rooms, calming rooms and therapy spaces.

### Involvement

- ◆ Detailed Site Survey, Detailed Design and Specification of the Building Engineering Mechanical & Electrical Services
- ◆ Infrastructure review and site diversions to accommodate the works, including capacity provision for the extended areas
- ◆ Due to the very specialist nature of the SEN end-users within the building, detailed co-ordination and user group meetings were carried out. These consultations ensured that room data sheets generated, captured the specialist nature of the facility to accommodate pupils' additional needs

### Benefits Delivered

- ◆ Assisted in selecting a building services contractor, undertook tender analysis of tender returns and made recommendations for best value proposal to undertake the works
- ◆ Improved upon the efficiencies at Illogan, whilst enhancing internal teaching accommodation and delivering a more dynamic learning environment
- ◆ The new building ensures pupils have the most up to date facilities so every pupil can achieve his or her maximum potential

*A £4.5m state of the art integrated  
SEN education facility*
